## SHFS10W Active subwoofer 10" white

Through downfiring (subwoofer on the bottom) this subwoofer, with a frequency range of 20-200 Hz, produces more bass sound. The crossover frequency is adjustable between 50 ~ 150Hz. The subwoofer takes care of the frequencies below the set value and thus relieves the other speakers in the system. The phase is to adapt, where you can choose from 0° or 180°. The stereo RCA input or standard speaker terminals can be connected to a receiver or amplifier. The subwoofer rests on four legs.

Product colour : White  
Output power: Max : 200W  
Diameter woofer : 8"  
Amount of woofers : 1  
Frequency response : 20Hz - 200Hz  
Impedance : 4 Ohm  
Input sensitivity line : 775mV - 1.2V  
Power supply : 220-240VAC 50Hz  
Dimensions (L x W x H) : 380 x 330 x 330mm  
Weight (kg) : 10,40  
Included accessories : Power cable

- Active system with 25cm (10") subwoofer for 200W max. performance
- Downfiring subwoofer in a heavy, low resonance chassis for clean bass
- Phase control
- Bass reflex design
- Adjustable crossover frequency for optimal sound quality
